

# OUR POLICIES

We use RSPO and Indonesia Sustainable Palm Oil (ISPO) certification as part of how we deliver our Sustainable Palm Oil Policy, Palm Oil Sourcing Policy and Responsible Supplier Guidelines. Selected commitments under these policies are as follows:

## SUSTAINABLE PALM OIL POLICY 2013

### (Covering our own estates)

- Target to achieve 100% sustainable CPO supply, requiring all our mills and plantations, including smallholders, to be RSPO-certified by 2019
- Zero burning policy for land clearing
- Demarcation of, and maintaining biodiversity of High Conservation Value (HCV) areas in accordance with RSPO guidelines since 2008
- No deforestation or new planting on HCV areas
- No planting on peatland regardless of depth since 2013
- Free, Prior and Informed Consent when engaging with local communities and stakeholders
- Protection of human rights and anti-sexual harassment policy to protect women and children's rights
- Prohibits child labour and forced labour

## PALM OIL SOURCING POLICY AND RESPONSIBLE SUPPLIERS GUIDELINE 2014

### (Covering supplies to our refineries)

- 100% sustainable and traceable palm oil sourcing by 2020
- Purchasing third party palm oil that is
  - not originating from areas cleared by primary forest since 2011,
  - not from HCV areas,
  - not from peat soil deeper than 3 metres planted after February 2009 in line with Indonesian Government regulations
- Respect the Sustainable Palm Oil Policy
- Encourages stakeholder engagement and best agronomic practices
- Sets the commitment to audit suppliers, using the Supplier Guidelines. Audits started in 2015.

### Our Sustainability Principles

Compliance	Healthy Living	Smallholders
Environmental Responsibility	Respect Human Rights	Innovation and Continuous Improvement
